

Customizable Care Plans for Each Clinic & Patient

MoveAI's platform is designed for **orthopedic clinics and surgeons** to provide a seamless, customized digital recovery experience for **TKR & THR patients**. Each care plan is tailored to the needs of the practice and individual patients, ensuring **better compliance, improved outcomes, and streamlined remote monitoring**.

- **Fully customizable exercise programs** that align with post-op protocols.
- **Remote monitoring with FDA-cleared devices** to track recovery progress.

FDA-Cleared/Listed Devices Supported by MoveAI

Device Name	Description
Gateway	Heart of Cellular-Connected Ecosystem; Auto Transmission of Vitals
BPM	Cellular-Connected Remote Blood Pressure Monitoring
BGM	Cellular-Connected Blood Glucose Monitoring
Scale	Cellular-Connected Weight Tracking
PFM	Cellular-Connected Peak Flow Monitoring for Asthma
Thermometer	Cellular-Connected Temperature Monitoring
Watch	Cellular-Connected Activity Tracking
Cellular POx	Cellular-Connected Pulse Oximetry

Sample Devices:

MoveAI: Built for Orthopedic Surgeons, By Orthopedic Experts.

MoveAI: Built for Orthopedic Surgeons, By Orthopedic Experts.

CPT Codes for RPM & RTM Reimbursement

CPT Code	Description	Approx. Reimbursement
98975	Initial setup and patient education on RTM device	~\$19 (one-time)
98977	Remote monitoring of musculoskeletal data (e.g., exercises, adherence)	~\$55 (monthly)
98980	RTM treatment management, first 20 minutes	~\$50 (per month)
98981	RTM treatment management, additional 20 minutes	~\$40 (per month)
99453	Initial RPM device setup and education	~\$19 (one-time)
99454	Supply of RPM device, data transmission	~\$55 (monthly)
99457	RPM treatment management, first 20 minutes	~\$50 (per month)
99458	RPM treatment management, additional 20 minutes	~\$40 (per month)

How MoveAI Customizes Care Plans

MoveAI provides a **personalized, adaptive care journey** for each patient:

- **Pre-op readiness tracking** (activity, education compliance).
 - **Automated rehab monitoring** with AI-driven insights (coming soon).
 - **Tailored exercise assignments** based on patient progress & surgeon protocol.
 - **Intelligent alerts for staff** to intervene only when necessary.
 - **RTM & RPM billing support** to generate additional practice revenue.
